

Selection of Member Class

The members vary in both age and skill level. To allow for members of different skill levels the club divides members into **three classes**:

Master - for highly skilled members

Journeyman - for members that are feeling more comfortable with photography

Apprentice - for newcomer just starting out

The Class is only used in determining winners of Slidell Photo Club scoring and year end Photographer of the year in each class. It does not determine entry in the Gulf States Camera Club Competitions or yearly Geiser Award.
